

T21 Life Skills—Identifying Money

Learning to identify and understand the concept of money is a vital skill. It helps young people gain confidence and independence, as well as practice their counting, addition and subtraction skills in a fun useful way.

Our identification sheets can be used in conjunction with play or real money to;

- Have an easy reference for recognizing what coin or note they are handling
- Explore examples of coins that can make up 1-10p
- Practice their money skills in play and real situations
